Income and Poverty Data by Tract

January 1985

RHODE ISLAND STATEWIDE PLANNING PROGRAM
265 Melrose Street
Providence, Rhode Island 02907
(401)277-2656

The Rhode Island Statewide Planning Program is established by Chapter 42-11 of the General Laws as the central planning agency for state government. The work of the Program is guided by the State Planning Council, comprised of state, local, and public representatives and federal and other advisors. The Office of State Planning, a division of the Department of Administration, is the staff component of the Program.

The objectives of the Program are to plan for the physical, economic, and social development of the state; to coordinate the activities of governmental agencies and private individuals and groups within this framework of plans and programs; and to provide planning assistance to the Governor, the General Assembly, and the agencies of state government. The Program prepares and maintains the State Guide Plan as the principal means of accomplishing these objectives. The State Guide Plan is comprised of a series of functional elements which deal with physical development and environmental concerns, the economy, and human services.

This technical paper is one of a series prepared by the Office of State Planning. These papers present information developed through Program activities to state and federal agencies, local governments, and the public.

Program activities are supported by state appropriations and federal grants. The contents of this report reflect the views of the Statewide Planning Program, which is responsible for the accuracy of the facts and data presented herein. The contents do not necessarily reflect the official views or policies of other sponsoring agencies. This publication is based upon publicly-supported research and may not be copyrighted. It may be reprinted, in part or in full, with the customary crediting of the source.

PREFACE

This paper contains selected income and poverty data on 3 geographic levels: the state (Table 2), cities and towns (Table 3), and census tracts (Table 4). Poverty data display: total families, families with children under 18, families with female householder, and families with female householder with children under 18, total persons, unrelated individuals 15 to 64 and 65 and over below the poverty level. Income tables display: median income, median family income, per capita income, family income by race and Spanish origin, and incomes of unrelated individuals 15 years and over. Tabulations of poverty status exclude inmates of institutions, persons in military group quarters and in college dormitories, and unrelated individuals under 15 years.

The data are from Summary Tape File 3A and are sample data subject to sampling variability. A second data limitation relates to suppression due to the confidentiality criteria established by the Bureau of the Census. Data are withheld when the number of persons or households is small enough to identify individuals. For example, characteristics of families are shown if there are at least 10 occupied housing units within the geographic area tabulated. Characteristics of persons other than race or Spanish origin (e.g. age, income) are shown only if there are 30 or more persons in the geographic area.

Population characteristics cross - classified by race or Spanish origin are subject to an additional level of scrutiny. This level requires the 30 person or 10 household criteria be applied to each race or Spanish origin group. In this paper suppression is denoted by an asterisk (*).

If the thresholds are not met for each category and identity could be revealed by subtraction, data for all categories are withheld (complementary suppression). In this

paper complementary suppression is applied in the table "Family Income by Race" where the racial categories are blank for the 38 census tracts listed in Appendix C. Suppression is the reason census tract totals within a city or town could be less than the city or town total shown in Table 3.

This paper is a product of the Office of State Planning's State Data Center Program for census dissemination as outlined in Task 407 of the annual Work Program for Fiscal Year 1985. Staff responsible for preparation of this material are James A. Andrade, Principal Systems Analyst, Joyce S. Karger, Senior Planner, and Anna M. Roccio, Word Processing Typist.

INTRODUCTION

Poverty today is a product of a complex industrial society and tends to grow with it. Recognizing the growing magnitude of poverty in the 1960's, President Lyndon Johnson initiated War on Poverty programs targeted to Appalacian Whites, rural Southerners, and the elderly. The official definition of poverty used today is a product of that era. Since 1969, the Bureau of the Census has been the source of the official poverty estimates. Estimates of the poverty population, based on the cash income data in the March Current Population Survey, are published annually by the Bureau.

Families and unrelated individuals are classified as being above or below the poverty level using the poverty index based on the Department of Agriculture's 1961 Economy Food Plan and reflects the requirements of families according to their size and consumption. The poverty thresholds are updated every year, mirroring changes in the Consumer Price Index. The poverty index is derived soley from the following sources of money income: wages and salaries, net income from nonfarm self-employment, net income from farm self-employment, Social Security or railroad retirement, Supplemental Security income, public assistance or welfare payments, interest on savings or other investments which pay interest, dividends, income from estates or trusts, or net rental income, veteran's payments or unemployment and worker's compensaton, private pensions or government employee pensions, alimony or child support, regular contributions from persons not living in the household, and other periodic income. The poverty index does not include noncash benefits such as food stamps, Medicaid, and public housing. The average weighted poverty thresholds for 1979 to 1983 are shown in Appendix A, Table A. The average annual consumer price index for 1947 through 1983 is shown in Appendix B, Table B.

Poverty Trends

If the amelioration of poverty is the goal, the War on Poverty and successor efforts are failing. Despite a decline in the percentage of the nation's individuals below the poverty level from 22 percent in 1959 to 11.7 percent in 1979, poverty still exists. Moreover, it is increasing. Between 1979 and 1983, the official U.S. poverty rate rose from 11.7 percent in 1979 to 15.2 percent in 1983, the highest level since 1966 (See Table 1). Similarly, a recent report from the Southern Regional Council states that the number of poor people in the South has risen from 15.6 percent in 1979 to 18 percent in 1983. Between 1980-83 inflation, unemployment, and a reduction in federal funds to programs such as food stamps, financial aid to families with dependent children, and job training account for an additional 6 million Americans falling into poverty. However, unlike the 1960's, due to changes in family composition and limited employment opportunities, the poor of the 1980's are most likely to be female heads of household who are divorced with children, elderly widows, or Blacks and Hispanics residing in the urban areas of the Northeast.

Although most Rhode Islanders are middle class, a portion of the state's population is poor. In 1970, 11 percent of persons living in Rhode Island were classified as being below the poverty level. In 1980, the percentage below the poverty level dropped to 9.9 percent. Is Rhode Island following the national trend? Who are the poor in Rhode Island and where do they reside? What is Rhode Island's per capita income? What is the median family income in the state? This paper will help to answer these and other questions relating to income and poverty in Rhode Island.

TABLE 1

Percent of Persons in Poverty, by Selected Characteristics: 1979-83 U.S.

	1979	1980	1981	1982	1983
All persons	11.7	13.0	14.0	15.0	15.2
White	9.0	10.2	11.1	12.0	12.1
Black	31.0	32.5	34.2	35.6	35.7
Spanish origin	21.8	25.7	26.5	29.9	28.4
Persons under 6	18.2	20.7	22.4	23.8	25.0
Persons 6 to 17	15.6	17.3	18.9	20.9	20.8
Persons in families	10.2	11.5	12.5	13.6	13.8
Persons in families maintained by women	34.9	36.7	38.7	40.6	40.2
Persons in married couple families	6.1	7.2	8.0	8.9	9.1
Persons 65 and over	15.2	15.7	15.3	14.6	14.1

Appendix E

GLOSSARY

Family — Two or more persons, including the householder, who are related by birth, marriage, or adoption, and who live together as one household; all such persons are considered as members of one family.

Family income in 1979 — Total money income received in calendar year 1979 by all family members 15 years old and over, tabulated for all families. Family income does not include income received by household members not related to the householder, persons living alone, and others in nonfamily households.

Income in 1979 — Total money income received in calendar year 1979, ascertained on a sample basis for all persons 15 years old and over. Total income is the sum of amounts reported separately for income from wages and salaries; nonfarm self-employed; farm self-employment; interest, dividends and net rentals; Social Security; public assistance; and all other sources.

Median — In general, a value that divides the total frequency into two equal parts. Most medians presented in Census Bureau publications are computed from a frequency distribution, using interpolation inside the interval that contains the median.

Race — The concept of race as used by the Census Bureau reflects self-identification by respondents; it does not denote any clear-cut scientific definition of biological stock. For persons with parents of different races who could not provide a single response to the race question, the race of the person's mother was used. All persons were asked to identify themselves according to the following race categories: White, Black, American Indian, Eskimo, Aleut, Japanese, Chinese, Filipino, Korean, Asian, Indian, Vietnamese, Hawaiian, Guamanian, Samoan and other. The "other" category includes Malayan, Polynesian, Thai, and other groups not included in the specific categories listed on the questionnaire such as Cambodian, Indochinese, Pakistani, Indonesian, and Fiji Islander.

Spanish origin — Persons marking any one of the four "Spanish" categories, i.e., Mexican, Puerto Rican, Cuban or other Spanish, are referred to as "persons of Spanish origin." It should be noted that "persons of Spanish origin" can be of any race.

Suppression — The legal requirement that the Census Bureau hold answers to census and survey questions in confidence and to publish no data which allows inference of the characteristics of particular persons, housing units, business establishments or companies. Complementary suppression occurs for all categories (e.g., race-age) even if ony one category is below the suppression threshold.

Unrelated individual

An unrelated individual may be a householder living alone or only with persons not related to him or her, a roomer, a boarder, partner, roommate, or resident employee unrelated to the householder, or a group quarters member who is not an inmate of an institution. Examples of unrelated individuals include: a widow or widower who is the sole occupant of a house or who resides with one or more individuals who are unrelated, a roomer not related to the householder, a maid living as a member of her employer's household, and a resident staff member in a hospital dormitory.
